SPRING OF 1960

Choice Gladiolus . . . The Best of Recent Introductions

TWO OUTSTANDING NEW GLADS FOR 1960

SUNSET BLAZE (334) (Baerman-Wagner 1960) (Royal Stewart x Golden Sunshine)—Midseason. This pedigreed orange-salmon consistently opens 11 florets on very long heads. Sunset Blaze is a truly impressive variety of vivid coloring and, we think, an excellent cutter.

Large, each \$2; Medium, each \$1.50; Small, each \$1.00.

Ten blbts. for \$2.00

Grower's Sample Unit: 1 L, 2 M, 5 S, 50 blbts. for \$12.50

EARLY SPRING (440) (Baerman-Wagner 1960) (Innocence x Rosita or Campanile)—Very early. Here is a light pink as early, or earlier, than Friendship but without the yellow infusion in the throat. Early Spring is a fresh, cool light pink, virtually a self save for a lighter, unmarked

throat. It might be called an improved Traveler or Rosa Van Lima. There has been a need for an extra-early cool pink of just this color. About seven very round, lightly ruffled florets are open at a time on fine heads. Cut-flower growers who have seen this have been enthusiastic about its prospects.

Without a doubt this glad was very outstanding for me this past season. It opens well from tight bud, has good color with spikes 48 to 52 inches tall. For growers who would like a larger quantity than listed, write for prices.

Large, each \$2; Medium, each \$1.50; Small, each \$1.00

One large and 10 blbts. \$4.00

Grower's Sample Unit: 1 L, 2 M, 3 S, 50 blbts. for \$12.50
